

Nano-Tera Special Session

Time: Wednesday, March 30, 2011, 10:30 - 12:15

Place: Main Conference Room

Chair :

- 1 i-Ironic: Implantable/Wearable System for on-line Monitoring of Human Metabolic Conditions**
Project Leader: Giovanni De Micheli of EPFL/LSI,
giovanni.demicheli@epfl.ch
- 2 IsyPeM: Intelligent Integrated Systems for Personalized Medicine**
Project Leader: Carlotta Guiducci of EPFL/IBI/CLSE,
carlotta.guiducci@epfl.ch
- 3 SimOs: Smart Implants for Orthopaedics Surgery**
Project Leader: Peter Ryser of EPFL/STI/IMT/LPM2,
peter.ryser@epfl.ch
- 4 TecInTex: Technology Integration into Textiles: Empowering Health and Security**
Project Leader: Gerhard Tröster of ETHZ/D-ITET/IFE,
troester@ife.ee.ethz.ch
- 5 Nexray: Network of integrated miniaturized X-ray systems operating in complex environments**
Project Leader: Alex Dommann of CSEM
- 6 NutriChip: A technological platform for nutrition analysis to promote healthy food**
Project Leader: Martinus Gijs of EPFL/LMS2, martin.gijs@epfl.ch
- 7 PATLiSci: Probe Array Technology for Life Science Applications**
Project Leader: Harry Heinzlmann of CSEM SA
- 8 PlaCiTus: Platform Circuit Technology Underlying Heterogeneous Nano and Tera Systems**
Project Leader: Qiuting Huang of ETHZ/Integrated Systems Laboratory (IIS), huang@iis.ee.ethz.ch
